🌐 [linkedin.com/in/nirmal-baig-front-end-developer](https://www.linkedin.com/in/nirmal-baig-front-end-developer)

Highly skilled and motivated **Front-End Developer** with expertise in **HTML, CSS, JavaScript, TypeScript, React, Angular, Bootstrap, and C++**. Experienced in designing and developing **responsive, user-friendly, and visually engaging interfaces** that deliver exceptional user experiences and impactful business results. Successfully completed a variety of projects, including **NASA-themed responsive websites, e-commerce platforms (Daraz, Khadi, Ashley, Glamics), company portfolios (Monarch, FreshEat), advertising brand websites (Baig Advertising), and functional applications such as Car Rental systems**. Adept at translating complex requirements into **scalable, efficient, and innovative solutions** with a keen eye for detail and strong problem-solving abilities.

Passionate about **continuous learning and innovation**, with a proven ability to stay ahead of industry trends and deliver high-quality, modern software solutions. Thrive in **collaborative environments**, contributing creativity, technical expertise, and professionalism to achieve team and organizational goals.
