🌐 [linkedin.com/in/nirmal-baig-front-end-developer](https://www.linkedin.com/in/nirmal-baig-front-end-developer)

I am a highly skilled and motivated **front-end developer** with expertise in **HTML, CSS, JavaScript, TypeScript, C++, and Angular**. I specialize in designing and developing **responsive, user-friendly interfaces** that deliver exceptional user experiences and achieve impactful results.

With a strong ability to **solve problems**, pay **attention to detail**, and **translate complex requirements** into scalable, efficient solutions, I have successfully completed a variety of innovative projects. My passion for **innovation** and staying at the forefront of **technology** ensures that I consistently deliver high-quality outcomes.

I am committed to **continuous learning** and thrive in collaborative environments where I can leverage my skills to develop modern, cutting-edge software solutions.

📁 PROFESSIONAL EXPERIENCE

2024 February –
present
Rahim Yar Khan,
Pakistan

Fiverr, Frontend Developer

- Delivered **responsive web designs** using **HTML, CSS**, and **Bootstrap**, ensuring seamless user experience across all devices.
- Developed **dynamic features** with **JavaScript** and **TypeScript**, enhancing functionality and user engagement for client websites.
- Built **scalable SPAs** with **Angular**, optimizing performance and ensuring smooth navigation for web applications.
- Applied **C++** for efficient algorithm development in back-end solutions when required.
- Ensured **cross-device compatibility** with **mobile-first layouts**, enhancing accessibility for users on any platform.
- Troubleshoot and resolved **technical issues** efficiently, delivering tailored solutions to meet client needs.
- Managed multiple Fiverr projects, ensuring **on-time delivery** with **high-quality results** and clear communication.
- Focused on **UX/UI design** to create intuitive, user-friendly interfaces, prioritizing accessibility and user satisfaction.
- Continuously updated my skills to deliver **cutting-edge solutions**, providing innovative services that align with the latest industry trends.

PROJECTS

2024 November –
2024

Project Title: Charter Car Booking System

- I developed the **Charter Car Booking System** using **HTML**, **CSS**, **Bootstrap**, **JavaScript**, **TypeScript**, and **Angular** to create a responsive, user-friendly platform. I designed a mobile-first interface and implemented dynamic features like real-time price calculations and car availability filters to enhance user interaction.
- By utilizing **Angular**, I built a scalable, component-based architecture, ensuring smooth transitions through the booking workflow. I integrated external **APIs** for real-time car availability and location tracking, further enhancing functionality.
- The project was optimized for **cross-browser compatibility**, with interactive elements and animations to engage users. I focused on **clean, modular code** and used **Git** for version control to ensure maintainability and collaboration. This project showcases my ability to combine front-end development skills with scalable solutions to deliver a seamless and efficient car booking system.

2024 –
2024 November

Project Title: Daraz website

- **Developed the Daraz website's responsive front page** using **HTML**, **CSS**, **Bootstrap**, **JavaScript**, and **TypeScript**, with **Angular** as the primary framework to ensure a scalable, dynamic, and user-friendly interface.
- **Implemented interactive features and real-time functionalities**, leveraging advanced front-end development techniques for enhanced user experience.
- **Optimized the design for cross-device compatibility** and ensured seamless performance across all screen sizes and browsers.
- **API Integration**: Integrated APIs to fetch dynamic content, enhancing the website's interactivity and functionality.
